1. Infant Feeding and Contraceptive Practices Among Adolescents with a High Teen Pregnancy Rate: A 3-Year Retrospective Study.

By: Glass, Tracy L., Tucker, Keelie, Stewart, Robert, Baker, Teresa E., Kauffman, Robert P.

Source: Journal of Women's Health (15409996)

Publication Type: Academic Journal

Subjects: TEENAGE pregnancy, BREASTFEEDING, BIRTH control, POSTNATAL care, MEDROXYPROGESTERONE, LEVONORGESTREL, intrauterine contraceptives, ORAL contraceptives, CONTRACEPTION, AMARILLO (Tex.), TEXAS, Family Planning Centers

Abstract: Background: Adolescents consistently demonstrate the lowest rates of breastfeeding among women of reproductive age despite well-documented benefits of breastfeeding. In Amarillo, Texas, a medium-sized community with a perennially high teen pregnancy rate, we sought (1) to determine breastfeeding practices among...
